

Name: 12s-8-11

Type: Butterfly control valves

Subtype: Medium parameters valves

Operating medium: air-gas

Body material: 20

DESCRIPTION:

Butterfly control valves have shutoff and control disk shaped device turning about an axis at a required angle to the direction of controlled fluid flow. Also these valves can be called as paddle valve, butterfly gate, hermetic valve, hermetically sealed valve, sealed valve. Butterfly control valves are widely used as isolation valves with respect to big diameter pipelines, low pressure and nonstrict requirements for operating device leaktightness.

TECHNICAL DATA:

Diameter, DN: 1000 mm

Pressure, PN: 0.1 MPa

Temperature: 400 C°

Maximum pressure differential: 0.1 MPa

Discharge rate (Kv100): 63000 m³/h

Rotational moment on the shaft: 630 N·m

Operating stroke: 0.25 mm

DIMENSIONS:

D1: 1010 mm

D2: - mm

D3: - mm

L: 220 mm

H: 1283 mm

Weight: 214 кг

ACTUATOR:

Control type: P

Actuator model: МЭО-630/25-0,25У-92К У2

Actuator power: 0.22 kW

Full stroke time: 25 s

DIMENSIONAL DRAWING:
