

Name: g1000-5-100
Type: Block load chains
Subtype:
GOST: ГОСТ 191-90
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 8 pcs
Pitch цепи, t : 100 mm
Bearing area: 2240 mm²
Ultimate tensile strength: 100000 kgs
1m chain weight: 69,4 kg

DIMENSIONS:

b3, not less: 80 mm
d0: 40 mm
l, not more: 72,5 mm
b1, not more: 237 mm
s: 7 mm

DIMENSIONAL DRAWING:
