

**Name:** g1600-5-120  
**Type:** Block load chains  
**Subtype:**  
**GOST:** ГОСТ 191-91  
**ISO:**

## DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

## TECHNICAL DATA:

Plates qty: 8 pcs  
Pitch цепи, t : 120 mm  
Bearing area: 3200 mm<sup>2</sup>  
Ultimate tensile strength: 160000 kgs  
1m chain weight: 99,9 kg

## DIMENSIONS:

b3, not less: 100 mm  
d0: 50 mm  
l, not more: 96,5 mm  
b1, not more: 275 mm  
s: 8 mm

## DIMENSIONAL DRAWING:
