

Name: g1600-5-120
Type: Block load chains
Subtype:
GOST: ГОСТ 191-91
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 8 pcs
Pitch цепи, t : 120 mm
Bearing area: 3200 mm²
Ultimate tensile strength: 160000 kgs
1m chain weight: 99,9 kg

DIMENSIONS:

b3, not less: 100 mm
d0: 50 mm
l, not more: 96,5 mm
b1, not more: 275 mm
s: 8 mm

DIMENSIONAL DRAWING:
