

Name: g25-5-25
Type: Block load chains
Subtype:
GOST: ГОСТ 191-82
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 2 pcs
Pitch цепи, t : 25 mm
Bearing area: 48 mm²
Ultimate tensile strength: 2500 kgs
1m chain weight: 1,68 kg

DIMENSIONS:

b3, not less: 18 mm
d0: 8 mm
l, not more: 15,5 mm
b1, not more: 36 mm
s: 3 mm

DIMENSIONAL DRAWING:
