

**Name:** g250-5-60  
**Type:** Block load chains  
**Subtype:**  
**GOST:** ГОСТ 191-86  
**ISO:**

## DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

## TECHNICAL DATA:

Plates qty: 4 pcs  
Pitch цепи, t : 60 mm  
Bearing area: 552 mm<sup>2</sup>  
Ultimate tensile strength: 25000 kgs  
1m chain weight: 17,5 kg

## DIMENSIONS:

b3, not less: 45 mm  
d0: 23 mm  
l, not more: 36,5 mm  
b1, not more: 114 mm  
s: 6 mm

## DIMENSIONAL DRAWING:
