

Name: g500-5-80
Type: Block load chains
Subtype:
GOST: ГОСТ 191-88
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 6 pcs
Pitch цепи, t : 80 mm
Bearing area: 1152 mm²
Ultimate tensile strength: 50000 kgs
1m chain weight: 31,5 kg

DIMENSIONS:

b3, not less: 60 mm
d0: 32 mm
l, not more: 51,5 mm
b1, not more: 159 mm
s: 6 mm

DIMENSIONAL DRAWING:
