

**Name:** g80-5-40  
**Type:** Block load chains  
**Subtype:**  
**GOST:** ГОСТ 191-84  
**ISO:**

## DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

## TECHNICAL DATA:

Plates qty: 4 pcs  
Pitch цепи, t : 40 mm  
Bearing area: 144 mm<sup>2</sup>  
Ultimate tensile strength: 8000 kgs  
1m chain weight: 3,7 kg

## DIMENSIONS:

b3, not less: 25 mm  
d0: 12 mm  
l, not more: 27,5 mm  
b1, not more: 58 mm  
s: 3 mm

## DIMENSIONAL DRAWING:
