

Name: g800-5-90
Type: Block load chains
Subtype:
GOST: ГОСТ 191-89
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 6 pcs
Pitch цепи, t : 90 mm
Bearing area: 1512 mm²
Ultimate tensile strength: 80000 kgs
1m chain weight: 46,8 kg

DIMENSIONS:

b3, not less: 70 mm
d0: 36 mm
l, not more: 60,5 mm
b1, not more: 198 mm
s: 7 mm

DIMENSIONAL DRAWING:
