

**Name:** 2pr-44\_45-344  
**Type:** Driving roller and bush chains  
**Subtype:** double-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 28A-2

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: 48,87 mm  
Pitch цепи, t : 44,45 mm  
Ultimate tensile strength: 344,8 kgs  
1m chain weight: 14,4 kg

## DIMENSIONS:

External links distance (b3) not less: 25,40 mm  
Pulley diameter (d1) not more: 12,70 mm  
Bushing bore diameter (d3) not less: 25,40 mm  
Chain coupling width (b7): 110 mm  
Height (h): 42,24 mm

## DIMENSIONAL DRAWING:
