

# 3pr-25\_4-171

**Name:** 3pr-25 4-171

**Type:** Driving roller and bush chains

Subtype: three-strand chain

**GOST:** FOCT 13568-97

**ISO:** 16A-3

## **DESCRIPTION:**

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## **TECHNICAL DATA:**

A: 29,29 mm

Pitch цепи, t : 25,4 mm

Ultimate tensile strength: 171,0 kgs

1m chain weight: 7,5 kg

### **DIMENSIONS:**

External links distance (b3) not less: 15,88 mm

Pulley diameter (d1) not more: 7,92 mm

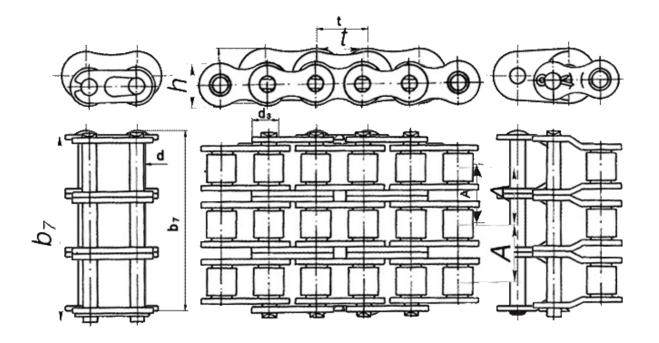

Bushing bore diameter (d3) not less: 15,88 mm

Chain coupling width (b7): 98 mm

Height (h): 24,20 mm
