

Name: 4pr-19_05-15500
Type: Driving roller and bush chains
Subtype: four-strand chain
GOST:
ISO: н/д

DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

TECHNICAL DATA:

A: 25,5 mm
Pitch цепи, t : 19,05 mm
Ultimate tensile strength: 155 kgs
1m chain weight: 7,7 kg

DIMENSIONS:

External links distance (b3) not less: 12,7 mm
Pulley diameter (d1) not more: 5,94 mm
Bushing bore diameter (d3) not less: 11,91 mm
Chain coupling width (b7): 104,8 mm
Height (h): 17 mm

DIMENSIONAL DRAWING:
