

**Name:** 4pr-31\_75-355  
**Type:** Driving roller and bush chains  
**Subtype:** four-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 20A-4

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: 35,76 mm  
Pitch цепи, t : 31,75 mm  
Ultimate tensile strength: 355 kgs  
1m chain weight: 14,7 kg

## DIMENSIONS:

External links distance (b3) not less: 19,05 mm  
Pulley diameter (d1) not more: 9,53 mm  
Bushing bore diameter (d3) not less: 19,05 mm  
Chain coupling width (b7): 157,5 mm  
Height (h): 30,20 mm

## DIMENSIONAL DRAWING:
