

**Name:** pr-12\_7-10-1  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 08-2

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm  
Pitch цепи, t : 12,7 mm  
Ultimate tensile strength: 10,0 kgs  
1m chain weight: 0,30 kg

## DIMENSIONS:

External links distance (b3) not less: 2,40 mm  
Pulley diameter (d1) not more: 3,66 mm  
Bushing bore diameter (d3) not less: 7,75 mm  
Chain coupling width (b7): 10,5 mm  
Height (h): 10,0 mm

## DIMENSIONAL DRAWING:
