

**Name:** pr-15\_875-23

**Type:** Driving roller and bush chains

**Subtype:** single-strand chain

**GOST:** ГОСТ 13568-97

**ISO:** 10B-1

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm

Pitch цепи, t : 15,875 mm

Ultimate tensile strength: 23,0 kgs

1m chain weight: 1,00 kg

## DIMENSIONS:

External links distance (b3) not less: 9,65 mm

Pulley diameter (d1) not more: 5,08 mm

Bushing bore diameter (d3) not less: 10,16 mm

Chain coupling width (b7): 24 mm

Height (h): 14,8 mm

## DIMENSIONAL DRAWING:
