

**Name:** pr-63\_5-354**Type:** Driving roller and bush chains**Subtype:** single-strand chain**GOST:** ГОСТ 13568-97**ISO:** 40A-1**DESCRIPTION:**

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

**TECHNICAL DATA:**

A: н/д mm

Pitch цепи, t : 63,5 mm

Ultimate tensile strength: 354,0 kgs

1m chain weight: 16,0 kg

**DIMENSIONS:**

External links distance (b3) not less: 38,10 mm

Pulley diameter (d1) not more: 19,84 mm

Bushing bore diameter (d3) not less: 39,68 mm

Chain coupling width (b7): 89 mm

Height (h): 60,4 mm

**DIMENSIONAL DRAWING:**
