

**Name:** pr-8-4\_6  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 05B-1

**DESCRIPTION:**

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

**TECHNICAL DATA:**

A: н/д mm  
Pitch цепи, t : 8,0 mm  
Ultimate tensile strength: 4,6 kgs  
1m chain weight: 0,20 kg

**DIMENSIONS:**

External links distance (b3) not less: 3,00 mm  
Pulley diameter (d1) not more: 2,31 mm  
Bushing bore diameter (d3) not less: 5,00 mm  
Chain coupling width (b7): 12 mm  
Height (h): 7,5 mm

**DIMENSIONAL DRAWING:**
