

**Name:** pr-9\_525-9\_1  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 06B-2

**DESCRIPTION:**

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

**TECHNICAL DATA:**

A: н/д mm  
Pitch цепи, t : 9,525 mm  
Ultimate tensile strength: 9,10 kgs  
1m chain weight: 0,45 kg

**DIMENSIONS:**

External links distance (b3) not less: 5,72 mm  
Pulley diameter (d1) not more: 3,28 mm  
Bushing bore diameter (d3) not less: 6,35 mm  
Chain coupling width (b7): 17 mm  
Height (h): 8,5 mm

**DIMENSIONAL DRAWING:**
