

**Name:** pri-103\_2-650-a

**Type:** Driving roller and bush chains

**Subtype:** single-strand bent plate chain

**GOST:** ГОСТ 13568-97

**ISO:** 65A-1

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm

Pitch цепи, t : 103,2 mm

Ultimate tensile strength: 650 kgs

1m chain weight: 28,8 kg

## DIMENSIONS:

External links distance (b3) not less: 49,0 mm

Pulley diameter (d1) not more: 24,00 mm

Bushing bore diameter (d3) not less: 46,0 mm

Chain coupling width (b7): 135 mm

Height (h): 60,0 mm

## DIMENSIONAL DRAWING:
