

Name: pri-140-1200

Type: Driving roller and bush chains

Subtype: single-strand bent plate chain

GOST: ГОСТ 13568-97

ISO:

DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

TECHNICAL DATA:

A: н/д mm

Pitch цепи, t : 140 mm

Ultimate tensile strength: 1200 kgs

1m chain weight: 63,0 kg

DIMENSIONS:

External links distance (b3) not less: 80,0 mm

Pulley diameter (d1) not more: 36,00 mm

Bushing bore diameter (d3) not less: 65,0 mm

Chain coupling width (b7): 182 mm

Height (h): 90,0 mm

DIMENSIONAL DRAWING:
