

**Name:** pri-140-1200  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand bent plate chain  
**GOST:** ГОСТ 13568-97  
**ISO:**

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm  
Pitch цепи,  $t$  : 140 mm  
Ultimate tensile strength: 1200 kgs  
1m chain weight: 63,0 kg

## DIMENSIONS:

External links distance (b3) not less: 80,0 mm  
Pulley diameter (d1) not more: 36,00 mm  
Bushing bore diameter (d3) not less: 65,0 mm  
Chain coupling width (b7): 182 mm  
Height (h): 90,0 mm

## DIMENSIONAL DRAWING:
