

**Name:** pri-78\_1-400-a  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand bent plate chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 49A-1

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm  
Pitch цепи, t : 78,1 mm  
Ultimate tensile strength: 400 kgs  
1m chain weight: 19,8 kg

## DIMENSIONS:

External links distance (b3) not less: 38,1 mm  
Pulley diameter (d1) not more: 19,00 mm  
Bushing bore diameter (d3) not less: 40,0 mm  
Chain coupling width (b7): 102 mm  
Height (h): 56,0 mm

## DIMENSIONAL DRAWING:
