

**Name:** g1000-5-100  
**Type:** Block load chains  
**Subtype:**  
**GOST:** ГОСТ 191-90  
**ISO:**

## DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

## TECHNICAL DATA:

Plates qty: 8 pcs  
Pitch цепи, t : 100 mm  
Bearing area: 2240 mm<sup>2</sup>  
Ultimate tensile strength: 100000 kgs  
1m chain weight: 69,4 kg

## DIMENSIONS:

b3, not less: 80 mm  
d0: 40 mm  
l, not more: 72,5 mm  
b1, not more: 237 mm  
s: 7 mm
