

Name: g160-5-50
Type: Block load chains
Subtype:
GOST: ГОСТ 191-85
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 4 pcs
Pitch цепи, t : 50 mm
Bearing area: 324 mm²
Ultimate tensile strength: 16000 kgs
1m chain weight: 9,4 kg

DIMENSIONS:

b3, not less: 35 mm
d0: 18 mm
l, not more: 30,5 mm
b1, not more: 95 mm
s: 4,5 mm

DIMENSIONAL DRAWING:
