

Name: g400-5-70
Type: Block load chains
Subtype:
GOST: ГОСТ 191-87
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 6 pcs
Pitch цепи, t : 70 mm
Bearing area: 1008 mm²
Ultimate tensile strength: 40000 kgs
1m chain weight: 25,8 kg

DIMENSIONS:

b3, not less: 50 mm
d0: 28 mm
l, not more: 42,5 mm
b1, not more: 148 mm
s: 6 mm

DIMENSIONAL DRAWING:
