

Name: g63-5-35
Type: Block load chains
Subtype:
GOST: ГОСТ 191-83
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 4 pcs
Pitch цепи, t : 35 mm
Bearing area: 120 mm²
Ultimate tensile strength: 6300 kgs
1m chain weight: 3,3 kg

DIMENSIONS:

b3, not less: 22 mm
d0: 10 mm
l, not more: 25,1 mm
b1, not more: 53 mm
s: 3 mm

DIMENSIONAL DRAWING:
