

Name: g80-5-40
Type: Block load chains
Subtype:
GOST: ГОСТ 191-84
ISO:

DESCRIPTION:

Block load chains are used in to-and-fro motion chain gears as traction element in hoisting machines with manual or mechanical drive. Also these chains are used in transfer mechanisms.

TECHNICAL DATA:

Plates qty: 4 pcs
Pitch цепи, t : 40 mm
Bearing area: 144 mm²
Ultimate tensile strength: 8000 kgs
1m chain weight: 3,7 kg

DIMENSIONS:

b3, not less: 25 mm
d0: 12 mm
l, not more: 27,5 mm
b1, not more: 58 mm
s: 3 mm

DIMENSIONAL DRAWING:
