

**Name:** 3pr-38\_1-381  
**Type:** Driving roller and bush chains  
**Subtype:** three-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 24A-3

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: 45,44 mm  
Pitch цепи, t : 38,1 mm  
Ultimate tensile strength: 381,0 kgs  
1m chain weight: 16,5 kg

## DIMENSIONS:

External links distance (b3) not less: 25,40 mm  
Pulley diameter (d1) not more: 11,10 mm  
Bushing bore diameter (d3) not less: 22,23 mm  
Chain coupling width (b7): 150 mm  
Height (h): 36,20 mm

## DIMENSIONAL DRAWING:
