

**Name:** pr-12\_7-9

**Type:** Driving roller and bush chains

**Subtype:** single-strand chain

**GOST:** ГОСТ 13568-97

**ISO:** 081-1

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm

Pitch цепи, t : 12,7 mm

Ultimate tensile strength: 9,0 kgs

1m chain weight: 0,35 kg

## DIMENSIONS:

External links distance (b3) not less: 3,30 mm

Pulley diameter (d1) not more: 3,66 mm

Bushing bore diameter (d3) not less: 7,75 mm

Chain coupling width (b7): 12 mm

Height (h): 10,0 mm

## DIMENSIONAL DRAWING:
