

**Name:** pr-15\_875-23  
**Type:** Driving roller and bush chains  
**Subtype:** single-strand chain  
**GOST:** ГОСТ 13568-97  
**ISO:** 10B-1

## DESCRIPTION:

Driving roller and bush chains are designed for mechanical energy transfer from drive shaft to driven shaft in chain gear. These chains consist of hinged links providing chain flexibility.

## TECHNICAL DATA:

A: н/д mm  
Pitch цепи,  $t$  : 15,875 mm  
Ultimate tensile strength: 23,0 kgs  
1m chain weight: 1,00 kg

## DIMENSIONS:

External links distance (b3) not less: 9,65 mm  
Pulley diameter (d1) not more: 5,08 mm  
Bushing bore diameter (d3) not less: 10,16 mm  
Chain coupling width (b7): 24 mm  
Height (h): 14,8 mm

## DIMENSIONAL DRAWING:
